NEW YORK, Oct. 25.-The Pitts- there to meet a great emergency and field, Mass., News on its editorial they were kept there for a patriotipage publishes the following comment on a tribute paid to President Wilson by the Rev. Father Bernard Conaty, pastor of St. Joseph's church of Pittsheld, who declared, in announcmg his support of the president, that "we should all thank God every day on bended knees for the guidance of our great chief, which has brought peace and prosperity to this country.

"That is the great, overwhelming issue in this campaign. It is of far greater importance than mere politics; it touches the very hearthstones of our homes, of our well-being Hughes has said nothing to indicate what he would have done if he had been in President Wilson's place, He has not indicated what he will do it elected president. Abandonment of the foreign policies laid down by the president means war with Germany nes surely as the coming of tomorrow

"Voters all over the country at beginning to realize this fact and more and more they are indicating their intention of standing by Presi deut Wilson, who is growing in popu larity and strength every day. Fathe Conaty also sounded a true note o patriotism when he said:

"'Our streets are decorated with the emblem of freedom. We've flung the Stars and Stripes to the breeze to welcome back home those brave soldier boys who answered the call to arms issued by the president.'

"Republican spellbinders are not pressing loudly these days the early contention that the 'Mexican mess' was just Democratic campaign timber. They have come to realize, even those who passed three days on the border, that the troops were sent today on a short visit.

"It is because of his staunch, un wavering patriotism that Father Conaty as a churchman comes out strong y for President Wilson. No one need search further for an argument why the president should be continued in office four years more."
